

21st Annual CMSE Exhibitor Invitation

Components for Military & Space Electronics Training & Exhibition

April 11-13th, 2017
Four Points by Sheraton (LAX)
Los Angeles, California

The Premier Event on Components Selection and use in Military and Space Electronics

What market and topics does the event target?

This Training & Exhibition delivers technical information useful to suppliers of electronics for military, space, and harsh environment applications. The training provides an indispensable vehicle for understanding today's evolving standards, technologies and industry practices driving solutions for demanding rugged environments. The Event will help the visitor, delegate, and the industry decision-makers in developing their business strategies and implementation plans. The goal of this event is to educate, inform and provide solutions for current issues with military and space electronics.

- Hermeticity and the new Spec Limits
- Reliability issues 2D & 3D FO-WLP
- Future of QML hermetic ICs
- Radiation Effects and Testing
- EOL and Obsolescence Issues
- GaN and SiC for RF and high temp
- COTS insertion success stories and challenges
- IC Copper wire bonding & reliability
- Issues with QFN & CS packages
- BME/PME MLCCs for hi-rel applications
- New technology for capacitors, resistors, relays
- Secure Electronics (anti-tampering)
- Challenges of Non-Hermetic Packages
- Life cycle Component Sourcing & Verification

The delegates and visitors

The event is targeted to a variety of high-level professionals working as:

- Design Engineers
- Manufacturing Engineers
- Engineering Managers
- System Integrators
- Component engineers
- Supply Chain Personnel
- Procurement Personnel
- Program Managers
- Project Leaders
- Quality Assurance Engineers
