

## Keith Benson

Keith Benson graduated from University of Massachusetts, Amherst with a B.S.E.E and from the University of California, Santa Barbara with a M.S.E.E in 2004. He then began his career in 2004 designing microwave ICs at Hittite Microwave Corporation. In 2011, he became the manager of an IC design group focusing on designing high frequency amplifiers and integrated frequency conversion ICs. In early 2014, he became the director of amplifier products for Hittite Microwave. In July of 2014, Hittite Microwave was acquired by Analog Devices, where he became a product line director for RF/ microwave amplifier and phased array ICs. Keith holds six U.S. patents related to novel amplifier techniques.
