

## **Gary Lerude**

### **Moderator**

Gary Lerude is an editor at Microwave Journal, where he contributes to the production of the monthly magazine, online news, video programs, podcasts, webinars, and the EDI CON Online conference, as well as covering RF/microwave trade shows.

Before joining Microwave Journal, Gary describes his career as being a “midwife” at the development and commercialization of the GaAs MMIC semiconductor industry, from device to application, defense to commercial. He spent 19 years at Texas Instruments, 11 years at MACOM and six years with TriQuint.

Gary holds a bachelor’s in electrical engineering, a master’s in systems engineering and an engineer’s degree (ABD) in electrical engineering.
