

Jeff Jarvis

Jeff Jarvis has served as a components engineer supporting Army aviation and missile programs for over 30 years. He has participated in numerous efforts to develop, document, and implement best practices for assuring electronic Parts/Components, Materials, & Processes (PMPs) reliability in fielded hardware. He is an active member of various industry standards bodies and consortiums including, the Society of Automotive Engineers (SAE) CE-11/CE-12, the Automotive Electronics Council (AEC), and the JEDEC JC13/JC14 point committees.
