

Brian Triggs

Mr. Triggs is the Director of the Radiation Hardened Program at Semicoa and has been part of the Rad Hard community for more than 40 years. He holds a BSEE from Rutgers University and MBA from California State University-Fullerton. Mr. Triggs has worked as a user of space and military parts for more than 30 years at Raytheon, IRT Corporation, Martin Marietta, and McDonald Douglas. For the past 11 years he has helped make Semicoa a leader in the Rad Hard semiconductor market.
