

**Gap Analysis of COTS style EIA-364 standards to MIL-DTL-55302.
What is needed and can be done for up screening Interconnects.**

John Riley

Samtec

john.riley@samtec.com

Samtec offers a sample lot screen test that could accelerate or eliminate some portion of up screening. High density, High speed, surface mount connectors are not easy to 100% test. What tools, standards, and mating interfaces exist. Can this reduce time to market?
